

“Resume page” is a text copy of my resume with a couple of links to pages inside my site describing the topic of the link.

“Email Ron” is an email link to me.

“Home” returns the site visitor to the home page of the site.

HFES, CHI-A and Ga Tech GVU links take the visitor outside my site to the websites for the mentioned entities.

“Georgia Tech GVU” link also takes the visitor to the their site.

“Personal page” takes the site visitor to three options of personal information,

1. My family photos,

2. Nick's (my son) snake page wherein he wanted to find and display information regarding snakes he finds interesting
3. Nick's stories is a page for Nick to write stories and post them to the Internet.

"Portfolio" is a page that describes some of my work; it displays a few web sites I've designed and it links to storyboards and wireframes for each.

"Master's Project" links to three pages inside the website detailing information about some of the work I did while in grad school –

1. My Master's Project
2. My Research project
3. The Kimura Project on which I was involved.
